

LANDOWNER WORKSHEET

Pine Creek Floodplain Restoration & Mitigation Project _____ Spring 2007

**Please provide information and positive suggestions that will contribute to a proactive and effective plan for Pine Creek Floodplain Restoration & Mitigation! Add additional pages if needed. Return to Powder Basin Watershed Council
3990 Midway Drive; Baker City, OR 97814.**

.....

PLEASE DESCRIBE HOW PINE CREEK IS IMPACTING YOUR PROPERTY [Flooding may be a negative or positive impact. How often does flooding occur? How much property is affected? Have you lost trees, streambanks or structures? Are any structures on your property or in the stream (e.g. irrigation diversion) threatened by Pine Creek? How have you responded to past events?]

WHAT WOULD YOU LIKE TO DO ON YOUR PROPERTY BORDERING PINE CREEK?

- Plant Trees
- Stabilize Bank (This addresses the prevention of destructive undercutting of bank)
- Identify Areas Where Flooding Is Okay
- Slow Water Velocity (by increasing channel complexity, e.g. pools, riffles, point bars, vegetation, bank stability, etc.)
- Improve Wildlife Habitat

- OTHER

HOW DO YOU FORESEE THESE CHANGES BEING ACCOMPLISHED?

DO YOU KNOW PLACES where other stream channels or function have been modified to reduce effects of flooding & sediment movement on structures and/or land? Do you know places where land has been set aside to flood and decrease the flood peak and power?
